SAV E THE DATE

The 10th Anniversary Training Course on:

School Health and Nutrition

26 May 2014: 10th Anniversary Symposium
27 May – 6 June 2014: School Health and Nutrition Course
Accra, Ghana

The school health and nutrition course is structured around the Focusing Resources on Effective School Health (FRESH) framework designed to develop and sustain quality school health and nutrition programmes. The 10 day course involves practical planning workshops, teaching and facilitation from school health and nutrition experts and visits to local schools to emphasise the local context.

An internationally renowned course designed to enhance the capacities of educationalists, public health professionals and policy makers towards the achievement of the Millennium Development Goals and “Education for All”

Course Fees
The course fee of USD1950 includes all lectures, training materials, meals, refreshments, field site travel and accommodation. Participants are expected to identify national, institutional or corporate donors willing to cover their course fees as well as personal and travel expenses.

Sponsorships
We can support your application by offering a letter of acceptance to the course and further documentation demonstrating the course’s content and impact.

Organisers
The Eastern and Southern Africa Centre of International Parasite Control (ESACIPAC), Kenya
The West African Centre for International Parasite Control (WACIPAC), Ghana
The Partnership for Child Development, Imperial College London, UK
